Theory and Practice of Teaching.

THE SIXTH ANNUAL SESSION

Begins August 7, (Tuesday) 1883. The outlook for the future is full of premise. The enrollment was 347 the past year. The growth from the first has been steady and healthy, and to-day the Normal is the largest school of its age in

A FULL FACULTY

Of earnest, experienced, and successful teachers are employed. Besides the seven regular teachers, several assistants, full of vigor and enthusia-m, render val-

Dr. Joseph Baldwin, author of School Management, says of the President, J. W. Terrill: "As a teacher and manager, he has few equals. His school at Huntsville impressed me as the best I had ever visited."

Dr. W. R. Rothwell, of William Jewell College, Mo., says: "Few men of his age in Missouri, or the West, have won and sustained a higher reputation as a successful, practical teacher and College President than Mr. Terrill."
Prof. W. P. Nason, President of North Missouri Normal, says: "He is an educator of the very first rank; that as a presiding officer and teacher he has

very few equals."

PROF. R. A. CLARK is a native of Tennessee and a christian gentleman of the highest type. He has studied and taught for twelve years in the town of Winchester, and his work and success in the class-room show him to-day one of the most accomplished teachers in Tennessee. While he is a self-made man and

teacher, and no graduate, yet none of our college-bred teachers will dare question or test his ability and skill by competing, or comparing results, with him. Free from the restraints of the old colleges be has readily accepted natural, or Normal, methods.

Miss Mattie Estill graduated in Mary Sharp College in 1875, and that institution honored her with a position as teacher, giving to her work and scholarship much praise. Since then she has spent two years in the Normal preparing herself for the grand work of teaching. She is a lady of fine ability, and an indefatigable student and worker. Her fine social qualities, her long training in Theory and Art of teaching, her scholarship, and her experience in securi with of the abole room all combine to make her a very superior teacher. Her fit

of the school-room, all combine to make her a very superior teacher. Her fitness, both natural and acquired, will be admitted by those who witness her Mrs. Colie Terrill, Principal of Preparatory Department, has had an experience of twelve years in teaching primary branches and little children. Crly after years of arduous study and training did she enter upon this work. Since 1876 she has taught in Winchester; and it will be admitted by all that she has

lifted Primary Teaching to a higher plane of excellence, thus conferring lasting benefits on our youth and schools. In Primary Work she is without a peer, not only in Winchester, but, we believe, in this portion of the State. Miss Bessie Beauchamp, of Texas, takes the place vacated by Prof. Wm. Mellheran. She has several years experience as a teacher. We assure our patrons and students that no mistake has been made in her selection. She was

for years a student of President Terrill's in Missouri. Miss Lillie Bledsoe has taught the Music the past two years, and her success has warranted the Faculty in purchasing new instruments throughout for her work in future. In this Department she will compare favorably with teachers

Miss Mamie French takes charge of an Art School in the Normal. This is a new and valuable feature to which we callespecial attention. She is well qualified, and comes to make permanent and successful this Department of the

Miss Mand Terrill, well known to the students and friends of the Normal, will teach half her time in the various Departments, as may be needed. Send for catalogue to
